Profile

Final-year B.Tech CSE (AI/ML) student with hands-on experience in building end-to-end web applications using Flask, REST APIs, and databases, along with AI/ML-driven project implementations.

Experience/Training:

Java web development with AI program, HCL

18/02/2025 – 18/03/2025

Completed a **120+ hour live training program** in *Java, AI integration, and Web Development*. Attended **interactive sessions with industry experts**, including real-time project discussions and problem-solving. The course covered core and advanced concepts in both domains, with hands-on experience in building smart, scalable web applications.

Python Full-Stack Development Training

2/10/2025 – 5/12/2025

- Completed an intensive **Python Full-Stack Development training** focused on real-world web applications.
- Gained hands-on experience in **backend development using Python (Flask)**.
- Built responsive frontends using **HTML, CSS, JavaScript, and Bootstrap**.
- Worked with **databases (MySQL / SQLite)** and implemented CRUD operations.
- Integrated **REST APIs** and handled JSON data.
- Developed and deployed mini full-stack projects including **Car Price Prediction** and **News Application**.

Education:

Bachelor of Technology/Computer Science and Engineering in [Spec - AIML], KCC Institute of Greater Noida

09/2023 – Present

- GPA: 69% (7th Sem)

Diploma (Computer Science and Engineering), Government Polytechnic Manesar

12/2020 – 08/2023

- GPA: 67.6%

Senior Secondary School, St. Joseph Convent School

04/2019 – 04/2020

67.23%

Projects:

FarmiWise Ai

- Developed an **end-to-end Agricultural Intelligence Platform** to support **data-driven farming decisions** and improve agricultural planning.
- Built a **Machine Learning-powered Recommendation Engine** for crop selection using soil nutrients, temperature, humidity, pH, and rainfall parameters.
- Integrated **Weather Analytics, Market Intelligence, and Crop Price Prediction** capabilities into a unified **Decision Support System**.
- Developed the application using **Python, Flask, SQLite, HTML, CSS, Bootstrap, and Scikit-learn** to deliver a responsive and scalable user experience.
- Implemented **User Authentication, Cloud Deployment, and Real-Time Data Integration** to enhance accessibility and usability.

Nexlanc AI — AI Resume Analyzer

- Developed a full-stack AI-powered web application to analyze resumes and generate actionable insights
- Implemented resume parsing (PDF/DOCX) to extract structured candidate information
- Integrated **Groq API** to identify skill gaps and automatically generate interview questions
- Built backend using **Flask, SQLAlchemy**, and integrated **TiDB Cloud (MySQL-compatible distributed database)** for scalable data storage
- Designed responsive frontend using **HTML, CSS, and Jinja2 templates**
- Deployed application on **Render** with environment-based configuration and secure credential management

Car Price Prediction System

- Built an ML model using **XGBoost** to predict used car prices after preprocessing and feature engineering.
- Developed a **Flask API** to serve real-time predictions from the trained model.
- Created an interactive **Streamlit UI** for user inputs and instant prediction results.
- Implemented the full pipeline: data cleaning → model training → backend → web interface.
- Demonstrated strong skills in **Python, ML algorithms, Flask, Streamlit, and deployment**.

Hand Gesture Recognition using Python, virtual mouse control and sign language

- Created a basic Hand Gesture Recognition project in Python using OpenCV to detect simple hand movements.
- Achieved **90%+ accuracy** on predefined hand movements for virtual mouse control.
- Applied **feature extraction, contour detection, and motion tracking algorithms**

Technologies

Languages: C++, Java, Python, Html, Css, Javascript

Frameworks: Flask, Django, Bootstrap, FastAPI, Node.js, TensorFlow, LangChain, Pandas, Numpy

Web Development Tools: MySQL, REST APIs, Git, GitHub, VSCode, Open AI, Render, Streamlit

CS Fundamentals: OOP, DSA, OS, DBMS, Computer Networks, Software Engineering

Certifications:

• - Advance Excel (Udemy)

• - Data Analytics (TuteDude)
